

The IdISBa opens a process of selection of applicants to submit to the call Miguel Servet of the AES 2017

The Institut d'Investigació Sanitària Illes Balears (IdISBa) opens a process of selection of applicants to submit to the call "Miguel Servet 2017" of the Acció Estratègica en Salut of the Instituto de Salud Carlos III. This action is framed within its strategy of attracting talent in the field of health research.

In case of being selected, the researchers must apply to the call for grants Miguel Servet in coordination with the IdISBa. This call focuses on the recruitment of doctors with a renowned research career in the field of sciences and technologies of health.

The facilities of the IdISBa comprise more than 4,000 m² destined to research and teaching, and offer to the researchers a complete catalogue of services and scientific and technical platforms. In the web www.idisba.es you can check the detail of our Institute.

Applicant requirements¹:

Doctor in Health Sciences. If the qualifications have been obtained abroad, it will be necessary a declaration of equivalence or resolution of homologation issued by the competent authority.

To have obtained the degree of doctor between January 1st, 2002 and December 31st, 2012 or have completed the research training program Río Hortega and have obtained the title of doctor².

Line of research included among the IdISBa priority areas:

[Http://www.idisba.es/Investigaci%C3%B3n/%C3%81reas](http://www.idisba.es/Investigaci%C3%B3n/%C3%81reas)

A solid research career in the last 5 years.

Documentation and deadline for submission:

Those interested must send a declaration of interest including the motivation and a summary of the previous experience, complete CV, project summary (maximum 3 sheets in Arial 11), proposed implementation center and the contact data of two references.

Please forward the information to the following emails addresses: isabel.teruel@ssib.es and Monica.castresana@ssib.es , indicating in the subject the reference MS2017.

¹ The cited requirements are subject to the requirements established by the Strategic Action in Health 2017. In case of modification of the requirements in the aforementioned requirements, those of the latter will prevail.

² These deadlines are expandable in the same terms as those contained in the Acció Estratègica en Salut 2017.

The deadline for submission of applications will end on April 24th, 2017³.

In case that the number of declarations of interest exceeds the maximum number of applications established in the call (2 per center), the IdISBa will prioritize, through the Internal Scientific Committee, the applications to be submitted according to criteria of research excellence and Strategic opportunity.

According to the limitation of requests to be made, the declarations of interest before mentioned will prevail over all other requests.

Personal data will be processed exclusively for the selection process of this call. Applicants have the right to exercise their right of access, rectification, cancellation and opposition recognized in the Law 15/1999 to the address: Institut d'Investigació Sanitària Illes Balears. Carretera de Valldemossa, 79. Hospital Universitario Son Espases. Edificio S. 07120 (Palma) Islas Baleares. España.

Palma, March 20th, 2017

³ IdISBa reserves the right to change the terms of presentation of declarations of interest based on the date of publication of AES 2017 and the respective calls.

If this occurs, the new deadline to submit declarations of interest will be notified through the web page www.idisba.es
